Greentown Labs Localization

- **2011**-Started as a space to build prototypes near MIT.
- **2012**-Moved to BID. Within 6 months from 14,000 sq.f its footprint expanded to 19,000 sqf and it opened an event space.
- **2013**- in Somerville MA, provides 40,000 sqf of prototypin. The Commonwealth of Massachusetts is contributing to Greentown's expansion into Somerville through a \$300,000 grant, provided by the **Massachusetts Clean Energy Center**

Greentown Labs: Clean Tech Incubator

Greentown Labs mission is

- to enable a vibrant community of entrepreneurs to work on their visions and to provide access to space, resources, and funding that allow their early-stage companies to thrive
- to provide low-cost prototyping space, co-working desks, free software and business services to clean energy and clean tech start-ups
- Involved firms range from the early conceptual stage of product development and prior to receiving venture capitals to firms already receiving venture capitals support and are now developing a more advanced stages of the product

Partners and Sponsors

Network:

- Joining the Greentown Labs community provides access to seed grants and support for RE projects from the public agencies and the venture capitalists.
- The network generates knowledge and experience share between the large companies and the clean technology startups.

Education:

- Greentown Labs companies have access to on-site resources that include weekly office hours and seminars.
- Trainings from sponsors and partners on specific tools and resources.
- On-site public educational events.

Innovation

- Greentown Labs is home to more than 30 companies that hold more than **16 patents in clean technologies**

Cleantech Cluster in
Helsinki

Greentown Labs: Clean Tech Industry

- Greentown Labs (GL) is a key actor in the promotion of the *cleantech innovation economy* which encompasses "...economic activity measured in terms of establishments and early-stage investments that produces new, innovative, and sustainable technological goods by organizations actively engaged in the commercialization process" (NECEC, 2014)
- GL provides access to *strategic resources* tailored to the specific needs of cleantech companies:

PROTOTYPE SPACE

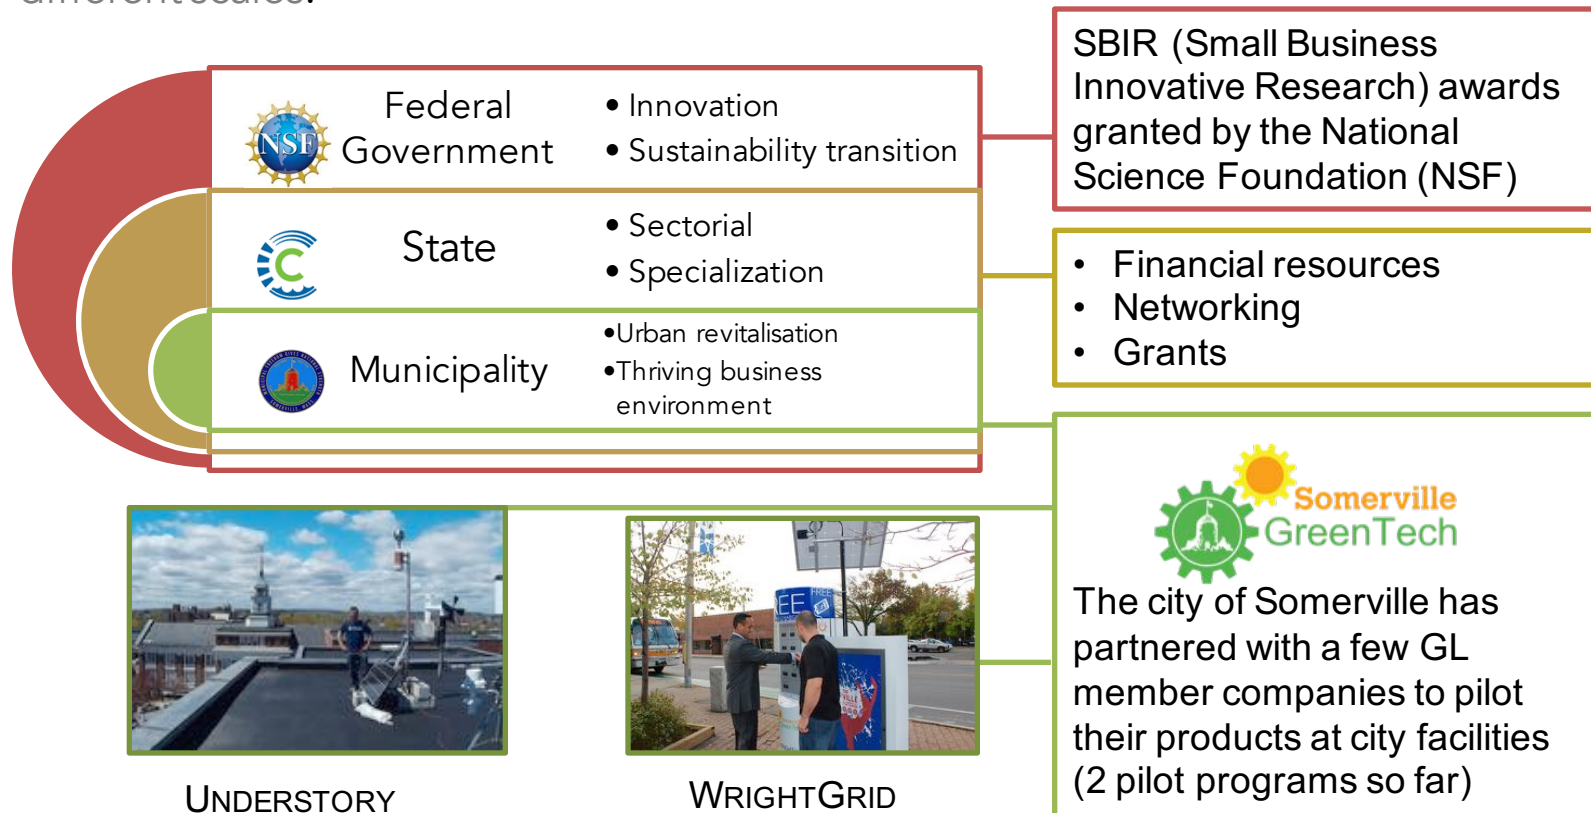

CAPITAL NETWORKS

- GL acts as a *catalyst/gateway* for cleantech entrepreneurs

Greentown Labs: Stakeholders and Governance

- Greentown Labs is a *convergence point* of a network of public policy initiatives acting at different scales:
