

## Quick Facts:

The Three Year Doctoral Fellowship program will ensure 6 best PhD students are provided with financial support plus tuition for the second year of their PhD studies to the Northeastern University of Boston. This program allows University Mediterranea of Reggio Calabria to continue to attract and support outstanding domestic and international PhD students to attend a prestigious program held by professor coming from EU and US academic institutions.

### Eligibility

Three Year Fellowships may be held by 6 European students. Funding is subject to satisfactory academic progress. International students (not European) are allowed to participate to the selection for further 6 positions without followership. They may be sponsored by their institutions, government or academic.

**Language:** English

### Special requirement

It is required 79/80 TOEFL score in order to be admitted for the second year to the classes of graduate program to the Northeastern University of Boston. The application to NEU requires the J1 Student Visa.

### Structures and Services

Students are allowed to use all structures and services provided by the Università Mediterranea di Reggio Calabria during the first and the third year of the program, and by the Northaestern University of Boston during the second year.

# INTERNATIONAL DOCTORATE

## Urban Regeneration and Economic Development

In 2012, The Mediterranean University of Reggio Calabria has launched the first cycle of the International Doctorate in "Urban Regeneration and Economic Development" (IDP). The IDP is an initiative promoted by the international research network of the CLUDs project under the Seventh Framework Programme Marie Curie IRSES 2010 and funded by European Social Fund Calabria Region Operational Programme . Building on the two main objectives of the project Cluds, 1. Improving innovation and knowledge economy in the field of urban regeneration process by introducing new financial urban management tool (CLUDs) and 2. strengthening research partnerships through Mobility of researchers by focusing on activities related to CLUDs, the IDP extends the topics towards a stronger linkage between urban regeneration and local economic development. The study program includes 12 courses during the first and second year, and a reinforcement of the Research Method in the third year. The first year is divided into six "main courses "coordinated by academics of the CLUDs research network in the field of Urban planning, Urban Regeneration and Economics. The second year includes 6 classes to the Northeastern University in Applied Macro and Micro Economics, Regional Development, Urban policy and strategic plans.

MISSION AND GOALS

The IDP has a leading position at international level, as it is based on an innovative multidisciplinary approach allowing the integration of economic disciplines with urban issues to support economic development of territories in relation to local needs. The emphasis on the public private partnerships, on the community led approach and the urban-rural connections reflects the orientation of the future cohesion policy to the Europe 2020 agenda defining areas of research consistent with the Horizon 2020. In addition, the strong interconnection Europe and the United States represents an added value in the context of future lines of research of Horizon 2020 in which bilat EU US projects are widely supported.

JOB OPPORTUNITIES

The IDP is based on a strong international overture in order to intercept new trends of the labor market supply and demand. The program aims at offering a higher qualification to reach the following job opportunities:

- Project Manager - Urban Regeneration Initiatives
- Community Initiatives led facilitator
- Real estate managers
- Expert in evaluation of public investment
- Expert in the built environment
- Incubator project manager
